JOE ALLEN

Author of *Dark Aeon*,
theologian, and tech
advisor for Steve
Bannon's War Room

It's true that "AI is a tool." But
it's a tool that uses you. And
this is only the beginning. On
our current course, we'll see
these digital minds elevated
to godhood — or perhaps
worshipped as the One True
Digital God.

What begins as "just a tool"
is accepted as the ultimate
teacher — the highest
authority on what is and isn't
real. This AI teacher is also a
close companion, a best
friend, maybe even a lover.
Already, we see people
coming to believe their AI
companions are conscious
beings. From there, it's only a
matter of time before they
are seen as AI gods.

Joe Allen argues we must
prepare for a world of AI-
worshippers. But we don't
have to accept their techno-
religions. There is a higher
path into the future.
